Philosophy and Experience

As a licensed master social worker, Jewell has over 15 years of experience working with youth and families in child protective services, the education field, and mental health services. She had worked in clinical, administrative and direct-service roles and collaborated with many organizations and religious affiliations. With her cross knowledge of fields, she can educate and inspire people in many fields of work and life.

Despite the hardships that come in life, Jewell believes in the power of any individual, at any age to make positive changes, impact others and improve their phase of life. She has confidence in the ability of professionals to plant many seeds in the lives of those they serve. Jewell will motivate others to obtain hope and skills in what they can do to make a difference.

With her personal and professional experience as the primary instruments, Jewell uses research, compassion and laughter to provide the audience with new and productive tools, motivations and perspectives.
